

**WE SOLVE
THE TECHNICAL
PROBLEMS THAT
OTHERS WALK
AWAY FROM.**

We thrive where others hesitate. Heavy industry, critical facilities, and high-load systems are our bread and butter. With a proven track record across energy, water and manufacturing sectors, we bring durable solutions, rapid response, and reliable results to environments that demand nothing less.

AUTOMATE. INTEGRATE. ELEVATE.

TECHNICAL SERVICES GROUP

Cromarty Automation provides expert Electrical & Instrumentation Services, delivered by a fully certified and skilled team of dual-trade technicians. We pride ourselves on delivering exceptional quality, safety, and customer satisfaction in every project.

ELECTRICAL & CONTROL SYSTEMS

▼ ELECTRICAL & CONTROL SYSTEM INSTALLATION AND COMMISSIONING

Cromarty Automation provides comprehensive installation and commissioning services for electrical and control systems. From design through to final testing, we ensure seamless integration into your operations, maximizing efficiency and minimising downtime.

▼ MOTOR CONTROL SYSTEMS

Our expertise in motor control systems includes the installation, testing, and maintenance of VSDs (Variable Speed Drives), Soft Starters, and Direct On Line (DOL) motor starters. We ensure that your motors operate at optimal performance.

▼ FAULT FINDING AND BREAKDOWN SUPPORT

Our team provides prompt and efficient troubleshooting services. We offer breakdown support, fault finding, and planned downtime maintenance to minimise disruption to your operations.

▼ UPS INSTALLATION SERVICE AND TESTING

Protect your critical operations with our uninterrupted power supply (UPS) service. We provide regular testing, maintenance, and troubleshooting to ensure that your systems are always powered when needed most.

▼ CELLULAR TESTING AND TELEMETRY SYSTEMS (4G/5G/WI-FI/UHF/VHF)

Cromarty Automation offers cutting-edge telemetry systems with power options ranging from battery, solar, and powered configurations. Our systems ensure reliable data communication over long distances, essential for remote monitoring.

CROMARTY AUTOMATION PROVIDES EXPERT ELECTRICAL & INSTRUMENTATION SERVICES

INSTRUMENTATION SYSTEMS

▼ INSTRUMENTATION INSTALLATION AND COMMISSIONING

From design to full-scale installation and commissioning, our experts offer end-to-end solutions for instrumentation systems. We help optimise the performance and reliability of your processes.

▼ INSTRUMENTATION CALIBRATION (ONSITE AND OFFSITE)

Our highly skilled technicians provide precise calibration services for your instruments both on-site and off-site. Using NATA traceable reference equipment and the Beamex CMX calibration management platform, we ensure complete traceability, digital calibration records, and consistent measurement accuracy to support reliable and compliant plant operation.

▼ ULTRASONIC FLOW VERIFICATIONS

Cromarty Automation uses the latest Ultrasonic technology with NATA traceable calibrations to verify and validate flow rates within your systems, ensuring proper operation and preventing performance issues.

HAZARDOUS AREAS & PROCESS OPTIMISATION

▼ HAZARDOUS AREA INSPECTIONS, INSTALLATION & MAINTENANCE

Our certified technicians specialise in hazardous area installations, inspections, and maintenance. We provide safe and compliant solutions to meet stringent industry requirements.

▼ PROCESS OPTIMISATION

Cromarty Automation assists in optimising industrial processes, improving efficiency, reducing energy consumption, and ensuring regulatory compliance. We focus on delivering measurable improvements to your operations.

ADDITIONAL SERVICES

▼ ON-SITE LEAVE, SHIFT COVER, AND SHUTDOWN SUPPORT

Cromarty Automation offers site leave, shift cover, and shutdown support to ensure your project continues smoothly. Whether it's short-term or long-term assistance, we've got you covered.

▼ VSD INSTALLATION SERVICE AND TESTING

We offer VSD servicing and testing, ensuring that your variable speed drives continue to operate efficiently, prolonging their lifespan and improving performance.

WHY CHOOSE CROMARTY AUTOMATION?

▼ CERTIFIED EXPERTISE

Our technicians hold certifications in confined spaces, hazardous areas, and working at height, ensuring safety and compliance in every project.

▼ CUSTOMER-CENTRIC APPROACH

Our team is 100% focused on customer satisfaction, delivering results that meet your specifications and exceed your expectations.

▼ COMPREHENSIVE SERVICES

From electrical and instrumentation systems to fibre optics and data cabling, we provide a full range of solutions to meet all your operational needs.

▼ INDUSTRY-LEADING STANDARDS

We comply to the highest safety and quality standards in all our services, ensuring reliability and performance you can trust.
